

Cafeteria Connection

Connecting you to your child's school lunchroom

Nutritious, Delicious, and Kid-Approved: School Meals That Shine

Did you know the meals in our school cafeteria rival those you'd find in a restaurant?

That's because our menus are created with the same care and creativity you'd expect from a fine dining establishment—not fast food! These recipes undergo rigorous testing by both students and adults to ensure they're as flavorful as they are nutritious.

FRESH, NUTRITIOUS, AND DELICIOUS

Our menus feature **exciting entrees** like taco in a bag, buffalo chicken sandwiches, teriyaki chicken salad, and chicken queso nachos. Each dish uses fresh, wholesome ingredients, with herbs and spices that enhance flavor without adding extra salt. We also incorporate vegetables in creative ways, helping students meet their nutritional needs while enjoying every bite.

Visual appeal matters, too.

We carefully consider the colors, textures, and presentation of our meals to make them as enticing as possible for kids. After all, eating with your eyes is part of the experience!

HEALTHY HABITS FOR A LIFETIME

These meals aren't just delicious—they're teaching healthy habits that can last a lifetime. All our menus meet federal nutrition guidelines, designed to improve the healthfulness of school meals.

If your child eats school meals, encourage them to share their favorites with you. If they don't, consider letting them give our menu a try. **Together, we can foster a love for fresh, nutritious foods!**
